**Summary / Sommaire :**

Mr. Hociung left a voice on April 2 requesting that I telephone regarding some issues he had concerning the March 9, 2015 correspondence we had sent him. When I called him back, he wanted me to have the file in front of me to discuss issues. I responded that all issues or concerns he had with regard to this enforcement action should be done in writing and that we would respond to all his queries in writing as well. He further stated that he thought of those additional questions only after responding in writing to our correspondence. I assured him that he could send those additional questions to me and that I would take them into consideration. He responded that he would let us answer this original letter first and if he had anything to add, he would simply send it in at that time.

End of conversation

Martine Gagnon
