Summary / Sommaire :

Mr. Hociung left a voice mail on April 7, 2015 requesting to get the contact information for the legal services unit. When I called him back on April 8, 2015, I responded, with the acknowledgment and approval of my Manager that I would not be able to give him this information as it is client/solicitor privileged information.

He responded that he did not want to talk to our lawyer but rather wants to talk to the Minister as he did not understand that we could not read and understand the definition of cash in the proceeds of crime regulations.

I informed him that we would respond to his letter shortly.

End of conversation
